It is said here that Senator rice, a large stockholder and director of he road, has stated that the Midland vision of that system would not be affected by the Georgia Central going out of he system, but that the offices would be moved from Atlants probably to Washgton and Richmond.

The recent decision of the Court of Appeals by which the City Council could not exempt machinery and capital invested in manufacture here from taxation has caused a good deal of alarm. Judge Norton, when asked about it yesterday, said in substance that in his opinion the decision is not as sweeping as it appeared. It was intended to apply to a particular case, whether one piece of property could be exempt while another was taxed, and as Alexanandria had exempted all capital invested in manufacturing and manufacturing machinery from taxation the decision could not apply here.
